

SKILLS

Languages

C++, C#, Python, Lua

Engines

Unity, Unreal Engine 5

Graphics

Vulkan, DirectX 11, SDL

Tools

Git, Perforce, CMake

EDUCATION

Digital Arts and Entertainment

Game Development, Howest
2024 - 2027 (expected)

High School, Park Mladeze

Bilingual program
2019 - 2024

LANGUAGES

Slovak	Native
English	C1
Spanish	C1
Czech	C2

AVAILABILITY

Looking for an internship, February to June 2027 (18+ weeks).

Game programming and design student at Digital Arts and Entertainment (Howest), specializing in game AI, engine programming, and graphics. Built a custom C++ engine and AI systems ranging from Behavior Trees to flow field pathfinding. Seeking a programming internship for February to June 2027.

PROJECTS

Custom Game Engine, Q*bert C++

Built a small game engine from scratch for a Programming 4 assignment, then used it to recreate the first three levels of Q*bert, rendering, input, and game logic all self-written.

Game AI Unity, Unreal Engine 5, C++, C#

Behavior Tree driven survivor AI in Unreal Engine 5, with custom C++ tasks and services and a knowledge component tracking what each agent has learned, plus classic steering behaviors and a flow field pathfinding system with a custom Dijkstra priority queue and live debug visualization.

Graphics Programming C++, DirectX 11, Vulkan

A dual-mode rasterizer running both a hardware path through DirectX and a from-scratch software path entirely on the CPU, a separate CPU raytracer, and a Vulkan renderer.

Labyrintigo, team project Unity, C#

Shipped multiplayer PvP game built with a team of 6 students; owned labyrinth movement and power-up systems.

Allie Meet Alles, client project Unity, C#

Educational game built for an external client, shipped to WebGL for browser play.

Undertale: Sans Boss Fight C++

Recreated the Sans boss fight using a school-provided engine, the first project built around real-time input, timing, and state management.

Building games as a hobby since high school, early Python and tkinter experiments, an RPG Maker demo, and more, well before doing it professionally.
